TikTok plan for *Ikonik*

From November, Toggle runs TikTok on RM10,000 a month and keeps Google. Your CSE tracker is the final count, and we report every week.

WHERE TIKTOK IS TODAY

- **19 enquiries and 4 appointments** a working day in September, on RM5,317.
- In August, 71 of 414 TikTok DMs reached the clinic. No one watches the TikTok inbox.
- LIVE enquiries book 23 in 100. Your team books about half of WhatsApp chats.

WHAT WE CHANGE

- TikTok ads open a chat on a **new WhatsApp number**, and Cekat AI replies first.
- Each LIVE gets its own budget, with the most on the week's key LIVE.
- Lead forms restart for Klang Valley only.
- TikTok DMs switch off.

How a viewer becomes *a patient*

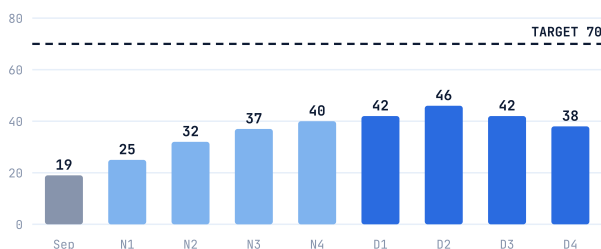

Every chat on the TikTok number counts as TikTok, so you and Toggle see the same count.

• DAILY TREND

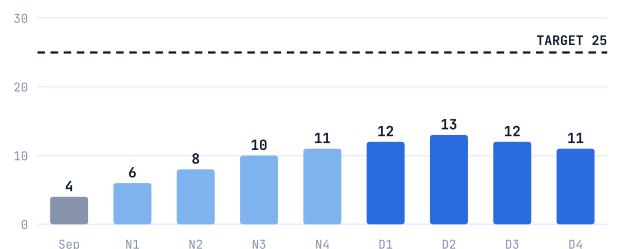

What we expect *each working day*

Numbers climb through November while click to WhatsApp ramps up, then hold in December. On RM10,000, both stay below 70 and 25.
