

ACCESS & ONBOARDING ROADMAP

Items needed:

BRU × HWC Coffee — Season 2 · Media Prima / Tonton

PREPARED BY

Toggle × COO

FOR

Media Prima

CAMPAIGN KICKOFF

6 July 2026

ACCESS NEEDED BY

5 July 2026

A checklist of exactly what we need from your side to build and run the campaign.
Nothing here needs passwords or personal logins — every platform below is connected
through **partner / agency access** that you approve and can revoke anytime.

Partner access, **not shared logins.**

We connect to your accounts as an approved partner agency. You keep full ownership and admin control; you simply grant our business IDs access to the specific assets we run.

01

We send IDs, you approve

We give you our Meta / Google / TikTok business IDs. You add them as a partner and assign the assets — ad accounts, pages, pixels. No credentials change hands.

02

You stay the owner

All accounts, pages and data remain owned by Media Prima. Our access can be adjusted or removed at any time from your Business Settings.

03

Three platforms first

The priority is the three ad platforms — Meta, Google, TikTok. Tonton data, deep links and the daily sync come alongside. Creative / CI runs through COO.

Meta · Google · TikTok.

For each platform we need partner access to the ad account, and where noted, the social pages and tracking pixel. Steps are written for whoever holds admin on your side.

META · BUSINESS SUITE

Ad account · Pages · Pixel

- 1 In **Business Settings** → **Partners**, choose “Add partner to share assets,” and enter our Business ID.
- 2 Assign the **Ad Account** (advertise + analyse permission).
- 3 Assign **Pages** access — not just the ad account — including the new BRU page (see §03).
- 4 Share the **Meta Pixel** (or create one and grant us access) — required for retargeting & lookalikes.

OUR META BUSINESS ID

Toggle Solutions · ID 596170808875972

GOOGLE · ADS

Manager (MCC) link

- 1 We send a **manager-account (MCC) link request** to your Google Ads Customer ID.
- 2 Approve it under **Admin** → **Access & security** → **Managers**.
- 3 If a YouTube channel runs the in-stream buys, link it / grant channel access for measurement.
- 4 (Optional) GA4 viewer access if landing-page / site events are in play.

OUR GOOGLE ADS MANAGER (MCC) ID

Toggle Solutions · MCC 673-838-5427

TIKTOK · BUSINESS CENTER

Ad account · Pixel

- 1 Add our **Business Center** as a partner using our BC ID (or approve our partner request).
- 2 Grant the **Advertiser (ad) account** and the new BRU TikTok account (see §03).
- 3 Share the **TikTok Pixel / events** access for retargeting.
- 4 Confirm Spark Ads authorisation on the BRU posts so we can boost organic content.

OUR TIKTOK BUSINESS CENTER ID

Toggle Solutions · ID 7308999566857338882

Pixels: power the retargeting and lookalike audiences in the media plan — without them we can only run cold reach, not the ≥50%-viewer retarget layer that closes subscriptions.

The dedicated **BRU** accounts.

Part of the strategy is giving BRU its own social presence — separate from the main Tonton feeds — so the IP builds its own fanbase and lives on after the finale. These accounts are created by Media Prima, then shared with us to run.

WHAT TO CREATE

- New **Facebook Page** for BRU
- New **Instagram** account for BRU
- New **TikTok** account for BRU

THEN

- Add these pages to your **Business Manager / Business Center**
- Grant our partner access to them (as in §02)
- We handle setup, bios, linking and content from there

Ownership: Media Prima owns these accounts and the IP throughout — we operate them as your partner. Once created, a quick chat on handles / naming and we take it from there.

Deep links, audience data & the daily sync.

Three things from Tonton turn the campaign from “reach” into a measurable, optimisable engine.

01

Tonton deep links

A deep link is a URL that opens the Tonton app **directly on the BRU episode** — instead of a generic web page or the app home screen. We need them so every “Watch on Tonton” click lands viewers straight on the drama, with no extra taps to lose them. Please confirm the links and flag any geo-lock or paywall friction.

02

Customer data & audience lists

Tonton customer / audience lists to build the retargeting and lookalike audiences promised in the deck — for example:

- Tonton subscribers
- BRU Season 1 viewers
- Tonton Instagram page followers
- Tonton website visitors

Shared securely and used only for this campaign’s targeting.

03

Daily performance sync

A **daily** feed on how we’re progressing toward our goals — **BRU viewers, subscriptions and drink sales** — not just raw platform stats. It tells us what’s working so we can shift budget day by day. Without it, we’re optimising blind.

Format: a shared sheet, dashboard export, or API — we just need it daily during the flight so budget reallocation is driven by actual performance.

Everything, in one list.

WHAT WE NEED	PLATFORM	ACTION ON YOUR SIDE	OWNER
Ad account (partner access)	Meta Business Suite	Add our Business ID as partner → assign ad account	MEDIA PRIMA
Social Pages access	Meta	Assign Page roles to our partner (incl. new BRU page)	MEDIA PRIMA
Pixel	Meta	Share / grant pixel access	MEDIA PRIMA
Ad account (manager link)	Google Ads	Approve our MCC link request	MEDIA PRIMA
Ad account + pixel	TikTok	Add our Business Center as partner → grant assets	MEDIA PRIMA
New BRU pages (FB, IG, TikTok)	Meta + TikTok	Create, add to BM/BC, grant us access	MEDIA PRIMA
Tonton deep links	Tonton	Provide deep links; flag geo / paywall friction	MEDIA PRIMA
Customer data & audience lists	Tonton	Share securely for retargeting / lookalike	MEDIA PRIMA
Daily performance sync	Tonton	Sheet / dashboard / export — daily during flight	MEDIA PRIMA
Episode footage + BTS	Creative	Provide rushes + press-con assets, rights cleared	MEDIA PRIMA
Corporate identity / logos	Creative	Brand assets & CI	COO
Partner IDs	All	Included in this doc (§02) — Meta, Google & TikTok	TOGGLE

Support: Media Prima’s team will know how to grant each of these — if any step needs a walkthrough, we’re on standby to screen-share and do it together.
