Marketing Proposal

[Your Open Day Engine]

[toggle.solutions]

The Open Day Opportunity

Two converging deadlines, one engine to feed both.

25

Open Day Locations

Rotating weekend events across Malaysia between now and the registration cut-off — each weekend is a fresh audience and a fresh ad geo.

31 July

Hard Registration Deadline

Every RM spent has to convert before that date. The plan front-loads volume and reserves a final-week push.

205

RSVPs last campaign

Over 8 days at ~RM13K spend.

58%

RSVP → walk-in

120 arrivals from 205 RSVPs — our show-rate baseline.

70

Students enrolled

~RM 35K+ net profit from a single campaign cycle.

Who We're Talking To

Three primary audiences, each spoken to in their own language — Malay-English mix, TikTok-native tone.

The SPM Leaver

Post-SPM · 16–19

50%
Budget

- **Pain:** peer pressure to default to matrik or foundation
- **Trigger:** SPM results, friends posting university acceptances
- **Hook:** direct entry into a real hospital learning environment

The Parent

Decision-maker · 35–55

30%
Budget

- **Pain:** doesn't know if IJNUC is "real" or a private-college risk
- **Trigger:** family discussion about cost + outcomes
- **Hook:** PTPTN-eligible, taught inside the National Heart Institute

Final-Year STPM

Deadline hunter · 18–20

20%
Budget

- **Pain:** running out of intake options before July
- **Trigger:** deadline panic + parent pressure
- **Hook:** walk in this weekend, talk to a real advisor, no appointment

Our Strategy at a Glance

A single-channel, geo-rotating RSVP engine — TikTok-only, scheduled around the open day calendar.

TikTok Strategy

RM 8,000

One Lead Generation campaign, three ad-set roles. Budget weight flips every Friday based on the weekend event location.

Always-On KL HQ

RM 2,000

25% · daily RM 67

CPL < RM 50

- Daily Mon–Fri open day at IJN HQ lobby
- 30km radius around Jln Tun Razak
- Klang Valley parents + SPM/STPM leavers
- Always-on baseline, never paused

Weekend Geo-Rotation

RM 4,800

60% · weighted by event

CPL < RM 45

- Geo flips every Friday to the weekend's host city
- 30km radius (50km in smaller markets)
- Pre-event creative with date + venue overlay
- WhatsApp click-to-message backup ad set

National Broad

RM 1,200

15% · daily RM 40

CPL < RM 65

- Awareness layer across all states
- Builds the retargeting pool for week 2+
- Allied health + managerial sciences interest stacks
- Feeds the geo-rotation ad set with warm audiences

Geo-Rotation Logic

Spend follows the open day calendar — not the other way around.

Friday Flip Cadence

- **Mon** — load fresh creator videos, set next weekend's geo
- **Wed** — kill bottom 30% by CPL, double-down on winners
- **Fri AM** — final QA: weekend geo live, date/venue overlay correct
- **Sun PM** — pull arrivals from IJN event team, recalibrate weights

Ad Set	Default	Event Wk
Klang Valley (always-on)	35%	25%
Weekend host region	—	50%
Other regions (broad)	65%	25%
WhatsApp backup (cap)	10%	10%

Free Creative Engine

TikTok One delivers creator videos at zero production cost — the backbone of our four-angle rotation.

10 / week

Free TikTok One Creator Videos

Unlocked at the RM 10K+ monthly spend threshold this plan already hits. ~40 creator videos per month — sourced through TikTok's creator marketplace, briefed by Toggle.

RM 0

Production Cost

No filming days, no studio hire, no post-production invoices. Creators self-produce against our briefs and TikTok matches them to the assignment.

~40

Videos / Month

4

Creative Angles in Rotation

2 weeks

Creative Refresh Cycle

Toggle writes every creator brief and reviews every video before it goes live — the supply is free, the curation isn't.

Creative Strategy

Four angles in rotation — each video lists every upcoming open day on screen so one creative serves every geo.

Career Relief

"You don't need med school."

- **Hook:** "Kerja kat hospital ≠ doktor"
- **Visual:** creator in scrubs, hospital corridor
- **Best for:** Career Pivoter, undecided SPM

Open Day Vlog

Creator visits the campus.

- **Hook:** "Come with me to IJNUC's open day"
- **Visual:** first-person POV, real campus tour
- **Best for:** High-intent research stage

POV: Almost Matrik

Discovery hook.

- **Hook:** "Aku dah register matrik, then..."
- **Visual:** bedroom storytime → open day
- **Best for:** SPM leavers + their friend groups

Parent Real Talk

Affordability + credibility.

- **Hook:** "Anak korang nak masuk allied health?"
- **Visual:** kitchen-table conversation
- **Best for:** Parents 35–55, BM-dominant

Every creative ends with the full upcoming open day calendar overlaid — viewer self-selects nearest date.

Messaging by Persona

Each persona gets a different hook, visual, and CTA — mapped to where they sit in the decision.

Persona	Hook	Headline Sample	Visual Direction	CTA
SPM Leaver	Skip the default detour	"Lepas SPM tak semestinya matrik."	POV bedroom storytime → open day vlog cut	RSVP for Nearest
Parent	Trust + affordability	"PTPTN-eligible. Taught at IJN."	Kitchen-table real talk, clean text overlays	Bring Your Child
Final-Year STPM	Deadline before July 31	"Last intake. Walk in this weekend."	Calendar countdown + open day venue b-roll	Walk In Saturday
Career Pivoter	Allied health = real healthcare career	"Kerja kat hospital tak semestinya doktor."	Scrubs, lab b-roll, MQA code overlay	Talk to an Advisor

Testing Framework

Three creatives per angle, refreshed every two weeks. We don't guess — we test.

01

Hook Style
POV vs Storytime vs Talking-head reveal

02

Visual Style
Campus b-roll vs UGC bedroom vs Kitchen-table

03

Social Proof
MQA badge vs IJN credential vs Alumni mention

04

CTA Language
RSVP vs Walk In vs Chat With Us vs Book Tour

05

Calendar Overlay
3 nearest dates vs Full 25-location grid

06

Lead Form Depth
4-field vs 6-field with program qualifier

Optimisation Cadence

Daily
Budget rebalancing, pause underperformers (CTR < 1%, CPL > 50% target)

Weekly
Creative refresh on bottom 30%, audience reads, form drop-off analysis

Bi-Weekly
New hooks into rotation, geo-by-geo show-rate learnings

Monthly
CPL recalibration on enrolment data, full strategic review

Lead Form Strategy

Conditional TikTok Instant Form: qualify the lead inside the ad, save sales time downstream.

Instant Form — Question Logic

Q1 — Which open day location interests you most?

Dynamic dropdown of 25 locations + KL HQ daily

Q2 — Preferred date and time?

Tied to that location's available open day windows

Q3 — Which program area?

Allied Health Sciences · Managerial Sciences · Still deciding

Q4 — What's your current status?

Final-year SPM · Post-SPM · STPM · Parent enquiring

Auto-filled

Full name · Phone · Email

Why conditional logic wins

01

Self-routing by location

Lead drops straight into the correct event team's sheet, no manual triage.

02

Sales sees intent before they call

Parent enquiries get the parent-friendly script. Final-year STPM gets deadline framing.

03

Drop-off telemetry feeds creative

Which question loses the most leads? That's the next ad hook to test.

04

WhatsApp follow-up on submit

Reminder 24h + 2h before the chosen open day — directly lifts show rate.

KPIs & Measurement

Daily monitoring. Weekly recalibration. Tracking against walk-ins and enrolments — not just RSVPs.

Cost Per RSVP

**< RM
50**

Across all ad sets; KL $\leq$ RM 50,
geo-rotation $\leq$ RM 45

RSVP Volume

**150–
250**

Monthly target, TikTok-only

CTR

> 1.5%

Above TikTok education
benchmark

Form Completion

**70–
85%**

Drop-off telemetry by question

Show Rate

$\geq$ 55%

RSVP $\rightarrow$ walk-in (vs 58%
baseline)

Walk-in $\rightarrow$ App

$\geq$ 30%

Matches last cycle's 38/120
conversion

Cost Per Walk-in

**< RM
90**

The number sales actually care

Cost Per Enrolment

**< RM
300**

Channel ROI proxy — the only

Reporting: live Google Sheet (daily) + written read-out (weekly) + strategic review (monthly).

The Show-Up Loop

Most agencies stop at RSVP submit. We close the loop back to TikTok so it learns who actually walks in.

Result: from Week 6, CPL stops being a vanity number — we optimise to cost-per-walk-in.

Pre-Launch Checklist

Five items from your side to unlock launch — everything else sits with Toggle.

01

TikTok Ads Manager access

Either grant Toggle access to IJNUC's existing TikTok Ads Manager, or we'll spin up a fresh one — both routes ready for day-one launch.

02

25-location weekend calendar

Through 31 July, so we can pre-build geo schedules and creative overlays.

03

Brand assets

Logo, program list with MQA codes, RSVP destination link, open day b-roll.

04

WhatsApp number for reminders

Single WhatsApp Business line for 24h + 2h reminder flow + click-to-message backup.

05

Vendor registration + sign-off

Procurement documentation completed; boss signature before week's end.

Once cleared

Toggle launches inside 5 working days — campaign structure, creative briefs to TikTok One, lead form + webhook, and the first week's geo rotation, all stood up by us.
